## GOOD CITIZENSHIP.

Motive of Two Interesting Meetings—Enthusiasm at Stonington—John M. Dorman Addresses Lebanon Assembly.

The fifth in the series of monthly Good Citizenship meetings under the auspices of the prohibition town committee proved this week the best yet. It was held in the Second Congregational church parlor in Stonington last week. William G. King presided. The program followed: The violin duet, Merion P. Clark, Maurice H. Crandall, accompanied on piano by Harry A. Northrup.

Prayer, Mrs. T. W. Hyde, president, followed. Christian Patriot, Mr. Alvin Cutler of West Mystic, violin duet, Messrs. Clark and Crandall. Address, "Some of the Causes of the Liquor Question Put to us," John M. Dorman of Stratford.

Reading, "Our Trolleys," Mrs. T. W. Hyde of the borough as delegates to the state convention in Meriden.

Resolution of sympathy for John F. Chesbrough, who buried his wife last week, was unanimously passed.

The feature of the third Good Citizenship rally in Grange hall, Lebanon, June 24, was a strong address by John M. Dorman of Stratford, Conn. Mr. Dorman predicted the time when saloon-haters will tire of voting, because of party allegiance for parties which license and perpetuate the liquor traffic. He clearly indicated the superiority of the party plan in attacking such a gigantic evil as liquor making and selling.

Leader E. Livermore acted as chairman very acceptably. Miss Winifred J. Robinson and Mr. Frederick N. Galt sang duet. County Organizer Ernest Allison Smith led in prayer. Miss Robinson sang with precision. When the Concert Bell was ringing, the Lebanon orchestra rendered a selection. This proved a highly interesting evening.

After a conference with Silas M. Wheelock, Richard Gorman and G. A. Hammond, of the sub-committee of the committee on the new high school, the management of the Putnam baseball team have made arrangements whereby the Providence street grounds are to be continued to be used as a playing field in spite of the fact that building operations are under way there. The field, being a large one, it is going to be possible to relocate the diamond at a point south of the present position.
